Annexure 'C' **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

Overview

The Company is engaged in manufacturing of all types of woven and printed labels, which promotes brand image of the customers. The Company's product is largely used by the garment manufacturers within India and abroad.

Industry Structure

As per the reports of the international agencies, the global economy is projected to slowdown and the significant reasons are Russia-Ukraine War, escalation of sanctions on Russia resulting in increase in energy prices, Lock-downs in China due to the Omicron. Many Countries are moving on from the phase of COVID-19 crisis, but deaths and hospitalisation especially among the unvaccinated remains high. Various fiscal and monetary policies around the world helped through the peak of the pandemic resulting in lighter economic impact. Advanced, emerging and developing economies are expected to have a slowdown in its growth.

India, being developing country, as per the reports of FICCI estimated growth in F.Y. 2021-22 between 8.3% to 8.8% and further estimated equally strong growth or more than 7.4% in F.Y. 2022-23. India's economic growth has also been hit by the Russia-Ukraine War with rising energy prices, wheat, fertilizers and edible oil. India has strong fundamentals and further due to growth enhancing policies and schemes such as production-linked incentives and government's push towards self-reliance and increased infrastructure spending leading to effects on job and income, higher productivity and more efficiency all will lead to accelerated economic growth.

Opportunities, Threats, Risk and Concern

The overall size of India's textile and apparel market is estimated to be around US\$ 140 billion in 2021 out of which approx. US\$ 99 billion is estimated from the domestic market which has recovered from the drop in 2020 due to the pandemic. The Market is expected to grow and reach at US\$ 190 billion by 2025. The production capacity in India has increased owing to the setting up of new manufacturing units across the value chain. The domestic textile and apparels market had declined during the peak of the pandemic in 2020. Market is on recovery mode but has still not reached at pre-pandemic levels, however with strong fundamental the market is expected to grow at a significant pace. The Indian government has been proactive in incentivising and encouraging the textile industry. The government has introduced Production linked scheme to industry for setting textile and apparel manufacturing in man-made fibre based products.

The global textile and apparel industry will continue to grow along with growing consumption of textile and apparel products in developing countries and a gradual economic recovery of major developed economies. However, the demand for woven and printed labels largely depends on the demand for ready-made garments, fashion trends, expanding consumption patterns, rising income levels etc. The major concern for the textile and apparel industry is the rising production costs, power costs and interest costs in addition to the poor infrastructure, inflexible labour laws, competition from low cost neighbour countries etc. Non-availability of skilled manpower also affects the industry. The Company has strategic plans for its operations with quality products and to face competitive markets, borrowing costs, inflationary conditions and entry of unorganized sector in the weaving and processing segment in textile industry.

The Company's operation at the two units, i.e. at

Chhatral and Anjar have been satisfactory. The Company believes in providing quality products and it's such belief leads towards its products being well accepted in domestic and overseas markets.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2022, and its profit (including other comprehensive income), change in equity and its cash flow for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

In our opinion and based on audit of the financial statement of the Company, we have determined that there are no key audit matters to communicate in our report.

Other Information

The Company's management and Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit (including other comprehensive income), changes in equity and cash flow of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accountings records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system with reference to the financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure 'B' to Independent Auditors' Report

[Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date]
Report on the Internal Financial Controls Over Financial Reporting under Clause (f) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Arex Industries Limited** ("the Company") as of 31st March, 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management and board of directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit, we conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment. Including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or, fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

1. Corporate information

Arex Industries Limited (the 'Company') is a public limited Company incorporated in India with its registered office at 612, G.I.D.C. Estate, Chhatral, Taluka, Gandhinagar, Dist. Gandhinagar, Kalol, Gujarat-382729. The equity shares of the Company are listed on recognised stock exchange in India. The Company is principally engaged in the business of manufacturing & Trading of Woven & Printed Labels.

2. Significant accounting policies

2.1 Basis of preparation of Financial Statement:

Statement of Compliance with Indian Accounting Standards (Ind AS) : The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act and other accounting principles generally accepted in India.

2.2 Use of estimates and judgements

The preparation of financial statements requires management to make judgments, estimates, and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates. The difference between the actual results and estimates are recognized in the period in which the results are known or materialised. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

2.3 Critical accounting estimates

A. Useful lives and residual values of property, plant and equipment

Property, plant and equipment represent a material portion of the Company's asset base. The periodic charge of depreciation is derived after estimating useful life of an asset and expected residual value at the end of its useful life. The useful lives and residual values of assets are estimated by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on various external and internal factors including historical experience, relative efficiency and operating costs and change in technology.

B. Income taxes

The Company's tax jurisdiction is India. Significant judgments are sometimes involved in determining the provision for income taxes including amounts to be recovered or paid for uncertain tax positions. Management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

C. Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised.

2.4 Summary of significant accounting policies

a) Current versus non-current classification

An asset is treated as current when it is :

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Revenue from the sale of goods is recognised when ownership in the goods is transferred to the buyer for a price, when significant risks and rewards of ownership have been transferred to the buyer and no effective control, to a degree usually associated with ownership, is retained by the Company. Sale of goods is stated net off VAT, CST, GST, discounts and rebates and excise duty.

➤ Interest Income :

Interest income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate.

All exchange differences arising on translation, are recognised in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

The Company contributes to a gratuity fund maintained by Life Insurance Corporation of India. The amount of contribution is determined based upon actuarial valuations as at the year end. Such contributions are charged off to the Statement of Profit and Loss.

➤ **Leave Encashment :**

Leave liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services is recognised as a liability at the present value of defined benefit obligation as at the Balance Sheet less the fair value of the plan assets, if any, out of which the obligations are expected to be settled. Leave liability is funded with Life Insurance Corporation of India.

• **Defined Contribution Plan**

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with as applicable tax rates and the provisions of the Income tax Act, 1961.

Deferred tax

In accordance with Indian Accounting Standard -12 "Income Taxes", Deferred taxes resulting from temporary difference between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

f) Property ,Plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price (Net of Cenvat and VAT credit/GST input credit wherever applicable) and any attributable cost of bringing the assets to its working condition for its intended use. Such cost also includes the cost of replacing part of the Property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of Property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All Other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Depreciation on Property, plant and equipment is calculated on a straight-line basis, from the month of addition, using the estimated useful lives, as specified in schedule II to the Companies Act, 2013, except in respect of the following assets:

Assets description	Useful life as per management	Used life under schedule II
Office Equipment	10 Years	5 Years
Air Condition	8 Years	15 years
Vehicles	6 Years	8 years
Machineries (Parts)	5 Years	15 Years
Building (Renovation)	5 Years	3 Years
Mobile Phone	3 Years	5 Years

Depreciation on Windmill is charged on written down value method based on the estimated useful life of the assets as specified under Schedule II of the Companies Act, 2013.

Gain or loss arising from de-recognition of property, plant & equipment are measured as the difference between the net disposal proceeds and carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives, and methods of depreciation of Property plant and equipment are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

g) Intangible Assets

Intangible assets acquired separately are measured at initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Intangible assets being Software is amortised over a period of 3 years based on management assessment and assessed for impairment whenever there is an indication that the intangible may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the statement of profit and loss. Gain or loss arising from de-recognition of an intangible assets are measured as the difference between the net disposal proceeds and carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

h) Leases

The Company's significant leasing arrangements are in respect of operating leases for premises. The leasing arrangements which are not cancellable range between eleven months to three years generally and are usually renewable by mutual consent at agreed terms. The aggregate lease rent payable is charged as rent in the statement of profit and loss.

i) Inventories

- Inventories are valued as under:
- Raw Material: at weighted average cost or net realisable value whichever is lower.
- Work in Progress: at the aggregate of weighted average material cost and direct applicable standard overheads or net realisable value whichever is lower.
- Finished Goods: at the aggregate of weighted average material cost and direct applicable standard overheads or net realisable value whichever is lower.
- Trading Goods: at Weighted average cost or net realisable value whichever is lower.
- Store, Spare & Packing Material: Weighted average cost or net realisable value whichever is lower.

j) Impairment of non-financial assets

The carrying amount of assets is reviewed for impairment at the end of each reporting date if there is any indication of impairment based on internal/external factor. An impairment loss is recognised in the statement of profit and loss wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's or cash generating unit's fair value less cost of disposal and value in use. In assessing value in use, the estimated future Cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining fair value, recent market transactions are taken into account.

The business plans which are approved on annual basis by senior management are the primary source of information for the determination of value in use. As an initial step in the preparation of these plans, various assumptions regarding market conditions, and cost inflation rates are set by senior management. These assumptions take account of existing prices and other macro-economic factors and historical trends and variability.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment. Such reversal is recognised in the statement of profit and loss.

k) Financial instruments

All financial assets and liabilities are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting. Financial liabilities i.e. borrowing & trade payables are recognised net of directly attributable transactions cost.

The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition. For the purpose of subsequent measurement, financial instruments of the Company are classified in the following categories:

➤ **Non derivative financial assets**

1) **Financial assets at amortised cost**

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash payments of principal and interest on the principal amount outstanding.

They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value plus transactions costs and subsequently carried at amortised cost using the effective interest method, less any impairment loss.

Financial assets at amortised cost are represented by trade receivables, security deposits, cash and bank balances, other advances and eligible current and non-current assets.

2) **Financial assets at fair value through other comprehensive income (FVTOCI)**

All equity instruments are measured at fair value. For all Equity instruments which are not held for trading, the Company may make an irrevocable election to present subsequent changes in the fair value in Other Comprehensive Income (OCI). This election is made on an investment to investment basis. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI which is not subsequently recycled to the statement of profit and loss.

3) **Financial assets at fair value through profit and loss (FVTPL)**

A financial asset which is not classified in any of the above categories are measured at FVTPL.

➤ **Non derivative financial liabilities**

All financial liabilities are classified into following categories:

1) **Financial liabilities at amortised cost**

Financial liabilities at amortised cost represented by borrowings, trade payables and other liabilities are initially recognised at fair value and subsequently carried at amortised cost using the effective interest rate method.

2) **Financial liabilities at fair value through profit and loss**

Financial liabilities at FVTPL are measured at fair value with all changes recognised in the statement of profit or loss.

De-recognition of financial instruments

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

Financial liabilities

The Company derecognises financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables and other contractual rights to receive cash or other financial asset not designated as at FVTPL.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12 months expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on historical credit loss experience and adjusted for forward looking information.

l) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits with banks other than deposits pledged with government authorities and margin money deposits.

m) Cash flow statement

Cash flows are reported using the indirect method, whereby profit/loss before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

n) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

o) Provisions, Contingent liabilities, Contingent Assets:

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be outflow of resources. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance sheet date. These are reviewed at each Balance sheet date and adjusted to reflect the current best estimate. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements. Contingent Assets are neither recognised nor disclosed in the financial Statements.

p) Borrowing Cost:

Borrowing cost are recognised as an expense in the period in which they are incurred, except to the extent where borrowing cost that are directly attributable to the qualifying asset till put for its intended use is capitalised as part of the cost of that asset.

q) Government Grant:

Government grants under TUF Scheme are recognised in the financial statement on accrual basis and the same is adjusted against interest expense for which it is granted in the nature of compensation.

r) Power Generation from Windmill:

Units generated from windmills are adjusted against the captive consumption of power at the factory. The monetary value of the units so adjusted, calculated at the prevailing UGVCL rates net of wheeling charges has been included in power and fuel. The value of unadjusted units as on the balance sheet date has been included in short term loans and advances in current assets.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly

Level 3 : Inputs for the assets or liabilities that are not based on observable market data (unobservable data)

Following table presents the Fair value measurement hierarchy for financial assets and financial liabilities :

c) Fair valuation method

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

d) Financial Instrument measured at Amortised Cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

38 Financial risk management

The management monitors and manages the Financial Risks by reviewing, from time to time, the Cash Flows, during the year. The risk towards loss due to volatility in foreign currency is negligible, even though the Company takes precautionary measures like forward booking for payments of imports. The management takes due care for the credit risk of any default in contractual obligations. Obligations of interest and decrease in sale may be the highest risk on profitability of the Company. The Country is facing non-availability of skilled manpower which may adversely affect profitability of the Company.
